2. The Komendatura at Naumburg was dissolved on 15 March 1948 and transferred to Schweinitz near Torgau. In the future their work will be done directly under the corps headquarters in Naumburg.
3. In the last week of February 1948 a wireless and searchlight station was established in the Kyffhäuser Gebirge in the immediate vicinity of the Soldatenbund Monument. A barbed wire fence was erected which stretches over one kilometer both to the east and to the west of the site. Inside an inner perimeter fence there are eight wooden huts. The compound was then occupied by Soviet troops numbering 60 to 100. Vehicles emerging from the compound proceed most frequently to Sangerhausen. Three searchlights, of normal air defense type, with reflectors of an estimated diameter of 1.20 meters (sic) are in the middle of the compound. There are also two wireless masts of about 15 to 20 meters high whose erection is nearly completed. On account of the trees which are in the way, it is not possible to see the bases of these masts, but they look as though they are mounted on concrete foundations.
